of the season; the advance in their prices and the quality of their work seemed of ofer an inducement to Western Manufacturer to make their own work. The trial has proved most satisfactory and our large and increasing trade is our reward.

Our work is emphatically "home-made work." We manufacture the leather from which we make our Boots and Shoes. This, with a long experience in the business, enables us to offer you any article in our time as cheap as can be purchased in New York. We, therefore, feel confident that an examination of our Stock, will convince you that it is the best policy, as well as the most profitable for you to encourage "Home Manufacture."

ful antidote to disease.

For Gentleman it will be found agreeable, warm, and heatiny to wear in the Goldest or ra niest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest souled boots or shoes in the most inclement weather, with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede over-shoes, as the latter cause the feet to per-pire in a very unheatiny manner, and, besides, are not dangerous to wear to pedestrians in tey weather, like india rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork propared, peculiarly placed inside, does not increase the size of the boot, or case the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercit with comfort and healthy effects. Their e pense is so sight as to scarce need mention; besides, those who petronize them will find their yearly doctor's bills much formasished thereby.

As the Hydromagen is becoming more known, its sale as mereasing to an almost incredible extent. Last y ar, in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburg, at d Berlin, our sales reached 1,722,450 pairs of Cork Soles. House .- Reports were made against the making of a joint will of husband and wife, which shall operate as a final settlement of an estate, and in favor of the claims of John Gobin, E. H. Davis, Chas. Wade and B. C. Thomas, which were concurred in. A joint resolution against the renewal of certain patents for reaping machines, was, on suspension of the rules, read three times and passed.

In the afternoon the following bills were passed; a bill to regulate the election of U.S. Senator; to prevent the desocration of the Sabbath: to prohibit profanity; requiring written briefs and oral arguments to be filed in the Supreme Court; to amend the act in relation to the appointment of Notaries Public, and defining their powers and duties.

MASS MEETING OF THE DEMOCRACY OF INDIANA!

Upon consultation with Democrats from ev-Invitations have been issued to a number of Colt actually offered them under the price prominent Democratic speakers, in our own paid for inferior articles at Liege! and other States, who, it is believed, will also be present and address the Convention.

An assemblage of the Democracy of Indiana is certainly imperatively demanded. If we wish to maintain our organization, we must taken from the Budget, published by the paat and consult as to the heet method of ren dering it effective. Let us, then, on the 22d of February, 1855, meet at the Capital of the State, re-assert the ancient principles from which we have never deviated, and adopt such a policy as will ensure a triumphant victory in the campaign of '56-a victory which is surely needed to reverse the hasty decision of October last, to vindicate the tarnished honor of our flag, and to place the State in the hands of its legitimate guardians—the Democratic

Tremendous Excitement in the House of Represenattives --- Free Soil Destitute of a "Constitutional Majority" --- Joint Resolution on its 3d, 4th, and 5th Reading, and amended at every stage-Speaker's Speech !!!

The friends of "liberty" throughout the State will be gratified to learn that Fusion pledges to indorse Messrs, Giddings and Garrison are in a fair way of being redeemed. On Thursday last, the joint resolution directing our Senators and Representatives in Congress to interfere with slavery wherever it exists, came up, as it was supposed, on its second reading, whereupon an amendment was proposed by Mr. Stanton justructing our Congressmen to use their influence in preventing the admission of any more Slave States in'o the Union. After a furious debate, Mr. Weir offered an amendment to the amendment, to the effect that no more territory admiting the than in any other State in the Union. profitable existence of slavery—that is, rich enough to produce cotton and sugar-shall be added to our domain, and that that already acquired, shall, in all its domestic arrangements. conform to "Northern opinion," regardless of Southern rights, the federal compact, and the visit New Hampshire, and attend the expeace and harmony of the Union.

At this period, the Hon. Speaker gave vent to a tremendous valcano of indignation, which he said he had reared to its present monstrous proportions from early intancy, against the in- school stitution of slavery. He said slavery was an and happy counter evil-a tremendous evil-an unmitigated and indescribable evil; that it injured the white room, to receive moral and religious instrucman more than the black man; that it tended tion and become faithful hus to d moralize public virtue, and to make individuals loose in their habits; that the prin cipal reason why noted instances of individual depravity could not be found in the North- that it is my native State. ern States could only be explained by the abence of Negro Slavery : that the Fusion Dehad promised the Free-soilers that all other Wales, are expected to be embodied. Colonel Colt, accused by the newspapers of having earried machinery to St. Petersburg, to make revolvers for the Czar, has published a derial in the Times. He says :-"It is not true that I have furnished arms or machinery to the Russian Government, or that I have contracted to furnish either arms or machinery to that Government. The only truth in the latter, as regards me, is, that I have been in Russia, as I have been in the other great States of Europe, during the last two months. Ever since my armory has been established in London, both it and my own skill have always been at the service of the Government, and it rests with them to employ either or both of them to their fullest extent. THE YANKEES .- It appears to be a great query in the minds of some of the western le how the Yankees manage to obtain a people how the lankees manage to be livelihood, among the barren rocks and bleak hills with which New England abounds. Indeed if I may judge from rep arks I have heard made, and questions asked me by some of your western people, I must conclude at once that they think those Yankees who live remote from villages and cities are a poverty-

stricken dishonest people. But, kind reader, as I passed the first twenty-five years of my life in New Hampshire, and that toe in the backwoods, you will pardon me for asserting that the yankees live higher and are more industrious and quite as honest as the inhabitants of our western States. It is true the weather is colder, the snow deeper, and the land less fertile, and more rocky and broken there than here, but it does not follow that the yankee must necessarily be a rogue. to obtain a living under such circumstances. New Hampshire, with all her rocks and mountains, has afforded at least a comfortable independence to her citizens. She has built school houses and churches wherever they were required by the intellectual and moral wants of her people. She has sent teachers and divines to almost every State of the South and West, besides educating those she kept at home, for it is, I believe, a statistical fact that there are fewer persons in New Hampshire, over the age of twenty-one, who cannot read and write

It is this general diffusion of knowledge among the masses, that has hewn and polished from the rough marble such giant minds as Woodbury's and Webster's, and his who now fills the executive chair of this, the greatest the freeest, and most happy nation on earth. The English government finds but little sympathy with the other powers of Europe whom it has applied to for the purpose of filling up the ranks of the army under the foreign enlistment bill. Switzerland, where it was thought the number required could be obtained, answers coldly and disapprovingly. Spain is also said to be against the project, stating that all the recruits will be needed for her own army. The hard service in the Crimea seems to have no very great charms for military men, and the European powers not yet involved in the present quarrel, are in no hurry to entangle themselves. TO THE PATRONS OF THE PANTO-LOGICAL SYSTEM OF HISTORY.—Since the issue of my first Prospecius, I have adopted a syle of execution, so much better suited for the objects aimed at in this work than any hitherio employed for such a purpose, that I have determined to reproduce the who e work in this new and most satisfactory style. In this manner I secure what I found could not be reached by Lithegraphy, the most perfect legibility and clearness of lettereing by which I am enabled to carry out fully my original design. The delay of publication of the Second Part which this arrangement has necessarily occasioned, feel under some obligations to explain to my friends who have accepted the First Part in the imperfect or in which it reached them. To all persons who have subscribed for the Second Part, and have already; solved the First, I am preparing to offer the emire work that his status is the work with an accepted the Parts, I in the new form, . ond Parts,) in the new form,

thoth First and Second Parts,) in the new form, which only the work will appear hereafter, at the original price of the Second Part. To all new subscribe any part of the work will be furnished on terms the same as first proposed.

My desire to render the work so permanently accurate as to meet all tests, and at the same time legible and intelligible to all persons, will, I think, in the estimation of its early patrons, tally justify the temporary delay of its final publication.

New specimens of the work thus improved, with a Prospectua, will in a few days to distributed by the hands of Agenis; and my own efforts to perfect the work in every respect, in the shortest practicable time, will be unromitting.

Yours, &c.,

New York, Oct 9th, 1854.

MCLEAN'S VOLCANIC OIL LINE

Ment.—Over a Millon of Bottles were sold in 1658. The augmentled ouecess of this Liamment, and the mira-ulous cures that it has and is performing, is all parts of the Western and Southern country, is a sufficient guarantee for its automishing effects.

Two dollar hottles of McLem's Volcaric Liminant has cured the most inveterate cases of Chronic and Inflamatory Rheumatism, Neurelgia, and Gout; in recent cases a few applications will give relief. For Paralysis, Contracted Muscles, Briffness or Weakness in the Joints, Muscless or Ligamments, it will never fail. If applied according to the directions, the once shrivaled and siffened limbs will care Sore Throat, Toothache, or Esrache, and it will almost instantly remove any local inflamations will eare Sore Throat, Toothache, or Earache, and it will almost instantly remove any local inflamation or pain. For sore Nipples, Caked Breast, sore Lips, chapped hands, chidblanas, &c., it is the only reliable remedy. One fifty cent bottle has never failes in caring the Piles. Hundreds who were afflicted for years with that distressing disease, have been cared by a few applications. It will remove Bronohelo, or Goitre, any unnatural lump, node or tumor, and it will cleanse and heal any ulcerous sores, or a disease called fever sores on the legs, no difference how long they may have existed One fifty cent bottle will heal the most severe hum or seedd, fresh est, or wound, without a scar. Bites of musquitoes, sing of bees, wasps, or an prisonous insect, one application will give lument relief. For brusses, sprains, dec. it is an infallible remedy. MeLean's Volcanie Oil Lumment has been thoroughly tested in each and all of the above diseases, and we have never known it to fail in performing a cure, when applied according to directions. Whoy then, will suffer from external liseases, when a safe and sure remedy is so easily obtained?

Every Famili, should tree a surely always on hand.

from external incases, when a safe and sure remedy is so easily obtained?

Every Family should keep a supply always on hand, for use in time of need.

Reader, have you friends that are suffering from exter nat diseases? then go tell them to call at once, and get a supply and he cured.

TO PLAYTERS PARMERS AND OTHERS, which are large number of hands and stock handson at

TO PLANTERS FARMERS AND OTHERS, working a large number of hands and stock, hundreds of dollars can be eaved annually by using McLean's Vol cause Oil Limment. It is equally efficacious in curing diseases in horses and other animals, such as splint, spavin, nodes, swelling or lameness. It will care poll-evil, fietula, old sives, or sweeney, if properly applied. For strains, bruises, scratches, chafes, saddle or collar galls, recent sores, wounds, de., it is an infallible remedy. There is no mistake about it. McLean's Volcanic Oil Liniment will never fail to cure any of the above diseases, if applied according to the directions, which accompany each bottle in English and German. Read the following certificate, which is INCONTESTABLE PROOF of what we have asserted:

J. H. McLean. St. Louis, Mo.—Dear Sir I was afflicated.

of what we have asserted:

J. H. McLean, St. Louis, Mo.—Dear Sir I was afflicted for fifteen months with rheumatism, so much that I was unable to attend to any business, my legs, arms, and fingers were swellen dreadfully, the muscles were contracted, and I suffered the most excruciating pain. I applied some five or six bottles of Mu-tang Liniment; it had no more effect than so much grease. I obtained one dozen of bottles of Volkanie Oil Liniment of your agent Mr. Pike, for which I shall ever feel grateful to him, and in five days I was entirely well, and I take pleasure in recommending it o the public. And I also add that one of my horses got east in the stable and was unable to stand up. In the more ng I made one of my boys rub on some of your Liniment and in three hours he could walk at out the yard, apparently that nothing had happened to him Mr. Davies and others of my neighbors were present at the time, and they concur with me in saying, that no planter should be without a supply of this invaluable medicine on hand. I remain yours, dec.

spinal Complaints, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or impurity of the Hood.

This valuable Medicine, which has become celebrated for the number of extraordinary cares effected through its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful carative proporties. The following certificates, selected from a large number are how-ver, stronger testimony than the mere word of the proprietors; and are all from genilemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.

P. BOYDEN, Esq., of the Exchange Hotel, Richmond known everywhere, says he has seen the Medicine called Carter's Spanish Maxtons administered in over a hundred cases, in nearly all the diseases for which it is recommended, with the most astonishing good results. He says it is the most extraordinary medicine he has ever seen.

He says it is sever seen.

AGUE AND FEVER—Great Cure—I hereby certify that for three years I had Ague and Fever of the most violent description. I had several physicians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised, but all without any permanent relief At last i tried Carter's Spanish Mixrora, two bottles of which effectually cured me, and I am happy to say I have had neither Chills or Fever since. I consider it the best Tonic in the world, and the only med icine that ever reached my case.

JOHN LONGDEN.

C. B. LUCE, Esq., now living in the city of Rich mord, and for many years in the post-office, has such confidence in the astonishing efficacy of Carter's Spanses Mixture, that he bought upwards of 30 bottles, which he has given away to the afflicted. Mr. Luck says he has never known it to fail when taken according to directions.

ng to directions.

Dr. MINGE, a practicing physician, and formerly of the City Hotel in the city of Richmond, says he has witnessed in a number of instances, the effects of Carren's Spanish Mixture which were most truly surprising. He says is a case of Consumption, dependent on the Liver, the good effects were wonderful indeed. SAMUEL M. DRINKER, of the firm of Drinker & Morris, Richmond, was cured of Liver Complaint of eight ye are standing, by the use of two bottles of ar ar's Spanish Maxture.

STILL ANOTHER CURE OF SCROPULA.—I herry valuable boy cared of Scrofula by Carter's Spatisture. I consider it a truly valuable medicine.
